

ABSTRACT OF THE DISCLOSURE

5       An EMI suppressing cable, includes a core wire bundle,  
a shielding layer and a sheath layer. The core wire bundle  
includes a plurality of core wires respectively covered with  
insulative covering layers, and ferrite compound-mixed resin  
layers are respectively covering the insulative covering layers.  
The shielding layer covers the core wire bundle. The sheath  
layer covers the shielding layer.
